

Dr James Yu is an Australian trained interventional pain specialist and consultant anaesthetist.

Following completion of his specialist anaesthetic training at St George Hospital, he pursued further training in Pain Medicine at Prince of Wales Hospital, completing his Fellowship in Pain Medicine. He was awarded the Merit Award from the Faculty of Pain Medicine Fellowship Examination in 2011.

Dr James Yu is a highly skilled Interventional Pain Specialist with a management approach that has prevented the need for extensive surgery and reduced pharmacological therapy.

For chronic pain sufferers, he will assess and select appropriate patients for treatment options including:

- Spinal Injection
- Nerve Block
- Joint injection
- Platelet Rich Plasma (PRP) injection
- Radiofrequency (RF) treatment
- Spinal Cord Stimulation (SCS)
- Intrathecal Drug Delivery System
- Ketamine infusion

Dr James Yu

MD, FANZCA, FFPMANZCA, FIPP

Interventional Pain Specialist

About Dr Yu

Dr James Yu is a board-certified Interventional Pain Specialist and Consultant Anaesthetist with Fellowships from the Australian and New Zealand College of Anaesthetists (FANZCA), Faculty of Pain Medicine of the Australian and New Zealand College of Anaesthetists (FFPMANZCA), and Interventional Pain Practice of the World Institute of Pain (FIPP).

Dr Yu is the Medical Director of Advanced Spine & Pain (ASP), a multi-disciplinary pain management practice, with centres in various locations in Sydney. He also serves as the Medical Director of ASP Rehab and the REGAIN Multidisciplinary Pain Management Program. Dr Yu delivers gold standard interdisciplinary pain management approach to chronic pain patients to facilitate better recovery and self-management of pain through the REGAIN program.

His passion for clinical research and evidence-based practice inspired him to establish Australian Medical Research (AMR), a private clinical research facility that works closely with pharmaceutical and medical device companies to conduct high-quality clinical studies. Dr Yu has been a primary investigator for clinical trials involving novel spinal cord stimulators, intra-discal injections, and pain medications.

Recognised by his peers for his expertise, Dr Yu is an examiner and training unit assessor for the Faculty of Pain Medicine (FPM). He has recently been appointed by the FPM as a supervisor for its pilot program to teach interventional pain procedures to pain fellowship trainees. He is the co-chair of the FPM NSW Regional Committee.

He is an Executive Board Member of the Neuromodulation Society of Australia and New Zealand (NSANZ) since 2017.
